AMENDMENT OF FEES AND CHARGES

AMENDMENT OF FEES AND CHARGES – DISPOSAL OF CONCRETE

The Shire wishes to advise that from **1 January 2025**, the fee to dispose of concrete containing metal reinforcing will change for commercial operators and businesses.

This change supports the Shire's recycling practices by encouraging separation of concrete free from metal reinforcing.

The Shire's waste facility is equipped with a crusher bucket attachment for its excavator, enabling the efficient processing of non-reinforced concrete into reusable material. This crushed concrete is utilised on-site to maintain internal roads and tracks, demonstrating a practical and sustainable recycling method.

The amendment to the Shire's Fees and Charges is as follows:

Waste Item	Current Commercial Customer Fee (incl GST)	Revised Commercial Customer Fee (incl GST)
Concrete, bricks, tile, rocks containing metal reinforcement and other waste types	FREE	\$32/tonne

Disposal of concrete without metal reinforcing remains free of charge for all customers.
