Summary of Report

This report and the Major Projects and Infrastructure Dashboard (**Attachment 1**) provide a high level update to Council to provide oversight and awareness of key projects to Council. Officers continue to refine the dashboard as projects progress and evolve; and further revisions have been made based on Councillor feedback.

Background

The Shire of Carnarvon's approach to the successful delivery of major projects and infrastructure continues to evolve, and includes the initiation of the Major Projects Office, Major Projects Committee (**Committee**) and addition of specialist skillsets to the Shire team.

The purpose and intent of the Committee is to:

- Strengthen community confidence in the Shire's delivery of major works;
- Support scrutiny, accountability, and good governance; and
- Provide a forum for discussing risks, resourcing, and alignment with strategic goals.

As part of this evolution, officers reviewed the master list of projects and the way in which updates are reported to this committee. It was discussed at the May 2025 committee meeting that the Major Projects and Infrastructure Dashboard (**Dashboard**) should include projects which are considered to include one or more of the following at a high degree –strategic value, community interest, risk or budget.

Further, committee members expressed a desire for the dashboard to include updates on status, risks/mitigation and budget. These changes have been actioned and the Major Projects and Infrastructure Dashboard is attached. It is intended to be a working document, and is expected to continue to evolve.

Stakeholder and Public Consultation

Committee Meetings are publicly advertised and open to attendance. Stakeholder consultation and engagement is undertaken on a per project basis as part of delivery, and will be reported on by exception in the dashboard.

Relevant Plans and Policy

Strategic Community Strategic Plan 2022 - 2032
Carnarvon Activation Plan

Financial Implications

Project budgets are reported on at a high level within the dashboard, noting both Shire and external financial contributions.

Risk Assessment

		STEP 3 – Risk Tolerance Chart Used to Determine Risk				
Consequence	→	Insignificant 1	Minor 2	Major 3	Critical 4	Extreme 5
Likelihood						
Almost certain	A	High	High	Extreme	Extreme	Extreme
Likely	B	Moderate	High	High	Extreme	Extreme
Possible	C	Low	Moderate	High	Extreme	Extreme
Unlikely	D	Low	Low	Moderate	High	Extreme
Rare	E	Low	Low	Moderate	High	High

Risk Category	Description	Rating	Mitigating Action/s
Financial Reputation	Projects require appropriate and adequate Council oversight to maintain transparency and ensure the community is well-informed.	D3 - Moderate	The proposed Committee will provide Council oversight, strategic direction, and transparency across key projects and initiatives. This structure is intended to support informed decision-making, strengthen governance, and ensure the community remains engaged and confident in the Shire's activities.
Reputation	Reputational damage arising from misinformation or inadequate project management.	D3 - Moderate	Implement clear and consistent communication strategies, including regular updates via official channels. Ensure strong project governance and oversight through established committees and reporting frameworks. Actively engage with stakeholders and the community to address concerns and clarify project objectives.

			Monitor public sentiment and respond promptly to emerging issues or misinformation.
Service disruption	Project delays due to lack of funding and/or limited availability of resources.	D3 - Moderate	Stage project delivery to align with available resources and budget capacity. Engage early with key delivery partners to secure commitments and identify potential resourcing gaps. Maintain regular project monitoring and adjust timelines proactively where required.
Environment	Environmental impacts resulting from project activities, including potential harm to land, water, flora, and fauna.	D3 - Moderate	Conduct environmental assessments and ensure compliance with all relevant legislation and regulations. Develop and implement an Environmental Management Plan (EMP) prior to project commencement. Engage qualified environmental consultants to monitor and guide works. Incorporate sustainable design and construction practices to minimise environmental footprint.

Community and Strategic Objectives

The proposal aligns with the following desired objectives as expressed in the *Community Strategic Plan 2022-2032*:

OBJECTIVES

In 2040 Carnarvon is a place where:

- *Our infrastructure, housing and amenities are high quality and accessible*

ADDITIONAL FOCUS AREAS:

- *Monitor the implementation of our Community Strategic Plan*

BIG IDEAS FOR THE FUTURE OF CARNARVON:

- *N/A*

Comments

The Dashboard (**Attachment 1**) provides an update on the following projects, and the table below provides an indication of the criteria for their inclusion. This meeting will provide an overview of the projects and allow for discussion on points of interest for Committee members.

Officers have continued to progress projects since the last committee meeting, including commencing procurement as allowed during the caretaker period across a number of projects.

As flagged at the September committee meeting, significant procurement processes have been commenced through Request for Tenders (RFT) as outlined in the attached dashboard. Major Projects and Infrastructure Staff also presented an update to the Community Meeting in Carnarvon on November 18; engaged with community members before and after the meeting; and presented project updates in the venue's foyer.

Presentations to the Committee will also provide further updates on the Carnarvon Airport Upgrades, and the 2026 Tourism Conference.

For clarity, the justification for projects included for updates at this meeting are summarised in the table below:

Project	Criteria			
	Strategic Value	Community Interest	Risk	Budget
