Lighting

there are 6 basic white flood lights. Also two sets of colour lighting states, one is just basic colour wash the other has a few disco party lights.

If you require custom lighting states or effects, please contact venue tech for more info, please note that some of the custom lighting will need the venue tech to operate the control for the event.

Audio

The audio is setup in a basic mode with 4 wireless microphones, 1 wired microphone, 3.5mm aux cable for phone and 3.5mm aux cable for computer. The mixer is locked and will only have control for volumes with max volume set.

If you require more audio equipment please contact venue tech for more info, please note that this may require the venue tech to operate the control for the event.

Video

There is a projector already setup to be display on the back wall of the stage. Please note that the computer to control this MUST be setup side of stage next to the audio mixer.

Stage Power & Circuits Plan Available	Yes

Venue Info

Carnarvon civic centre has two small venues on the same block which also shares an office with the visitor centre, which is all owned and operated by the council. Due to the nature of regional small theatre, most shows and events must be self-crewed as there is only one main tech for most events. For shows that need more crew will have to be planned and approved months in advance.

Venue equipment

Some of the equipment is share between the two buildings, the Woolshed has all the backline gear, which can also be use in the Camel Lane Theatre. Note moving the piano between the two venues requires a forklift. There are extra lights and audio gear that may be moved from the Woolshed to Camel Lane Theatre if it is required.

Location Info

The venue is in the centre of the town on the main road with access to local supermarket within walking distance, as well as few pubs that do lunch meals and dinners. Few coffees and take away shops close by too.
